954-2325604

I tried getting in touch  
by phone to Mr. Gold,

Jan 17. 10:15, A.M

Jan 18. 2:40, P.M

No response.

///

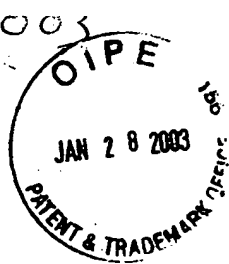

I wish someone could  
find out what's going on.  
I hope it isn't drugs.

That's my thought.

Sir:

I wrote to you people Dec. 2-2002 #2  
and received a start to my application  
nu. 10-068-544

I hired Mr Glenn Gold to be my  
patent att. Dec 8. 2000.

At the time, he told me it would take  
a year to get my invention, because of  
my age 84. It hasn't happen,  
going on third year.

I'll be 87 March 27-2003

Is there any possible way that my  
invention can be done sooner?  
I would like to see my invention  
made, Before I go to Heaven.

My patent att. should be doing this.  
I wrote & call him. He has refused  
to answer me.

I would think he would try to push  
the invention.

I get the impression, he wants to  
keep it for himself. The invention.

I called him, he was going  
to keep the original copy of my patent.  
Can he do that?

2.

Mr Gold hasn't done anything in two years for me, But ignore me until I contacted you people.

My invention was handed to Mr Gold. It was already made. All he had to do was make copy of the previous patent att. I had.

I would like to see my invention made. I think that's why I'm giving this long.

Please, I would appreciate a response from you.

Thank you, For what you have done.

Adele Mercier

Did you receive a declaration signed in two thousand? Was it sent in?

I have signed one in two thousand. Mr Gold didn't send it into Washington.

DECLARATION OF APPLICANT'S AGE  
(Accompanying Petition to Make Special)

*I've signed one, in two thousand,  
didn't help.*

I, Adele Mercier, residing at 348 S. Federal Hwy., Apt.  
23, Dania, Florida 33004, hereby declare that I was born on  
March 27, 1916.
